Douro

Experiences

We are Octant Hotels Douro

You will find us at kilometer 41 on the Douro River (starting from the mouth). Our location and the architectural characteristics of our building enhance the connection to the surrounding landscape and the sense of an escape from reality: built in schist and glass on a terraced hillside stretching down almost to the water's edge, the Octant Hotels Douro had, at the heart of its foundation, various environmental concerns and the desire that the hotel should be coherent with its surroundings. It is with our sustainability in mind that we planted a herb and vegetable garden where we are able to pick fresh herbs every day.

Here, human construction is unobtrusive, merging harmoniously with the river and the mountains surrounding it.

The natural setting is a constant. Here, you will find yourself amid an abundance of nature, both inside and outdoors.

This is one of the differentiating features of the Octant Hotels Douro: a hotel that is a work of art in a continuous dialogue with the river and the valley. And it is in this dialogue that the concept of the hotel is developing; a sophisticated but minimalist space, which is totally at one with its setting but where no detail is overlooked and guests' needs are never left to chance.

But we wanted more.

We wanted to share a little of our connection to the region with our guests. With this in mind, we developed a range of experiences (we prefer to call them experiences because the word "activities" doesn't do them justice; they are encounters that we hope will be both enriching and memorable), from culinary experiences that make use of regional products to picnics in secret locations or experiences more related to the river.

And here is our challenge to each and every one of our guests: tell us what your tailor-made experience would include and we will do our utmost to meet your expectations.

FLAVORFUL EXPERIENCES

In a region so rich in traditions and gastronomic products, where dishes are cooked with heart and soul, we wanted to celebrate the local flavors in such an incredible place as kilometer 41 on the Douro River.

Our chef DÁRCIO HENRIQUES

I remember being on my parents' farm, working with the soil, fruits and vegetables since a young age. That's where my passion for this world was born and, above all, my passion for the product!

I started my career in Portugal, in a more timid way, but in 2013 I took a leap of faith and started my journey abroad. I went to Paris where I worked with Joel Robuchon for 2 years. In 2015 I headed to Shanghai to open the first Portuguese restaurant – a very enriching experience! A year later I returned to Europe to work with Chef Eric Frechon at Celeste, at The Lanesborough hotel in London, where I took over as team leader in 2019 and won 1 Michelin Star in 2020/2021 (the only Portuguese to earn a Star abroad that year).

I join Douro41 Hotel & Spa with the ambition to rewrite Douro cuisine, honoring the river from its source to its mouth, paying homage to typical products from both sides of the river's border, with my touch of modern European creativity.

Enjoy the journey.

These experiences must be booked in advance and are subject to availability.

Douro through the ages

A sensory experience through the flavors of the Douro River.

From its youth, through its maturity and into old age.

We are at km 41 on the Douro River, starting from its mouth. It has run hundreds of kilometers to this point and is part of our identity.

Here, on the riverbank, a few kilometers away from its mouth, this seems to be the right place for a journey through the extraordinary and unique flavors of the Douro.

But we want to do it in an unexpected way – a journey through time and life, from youth, through maturity and into old age.

Come and join us on this journey. We'll be guiding you.

A tasting experience where the foundation is a 'board game', creating a sensory aroma base with natural products. The experience begins by tasting and analyzing 6 Port wines of different profiles, rating them, and subsequently selecting 1 glass per wine with the most prominent aromas in each wine, to later harmonize them with different types of chocolates. This tasting is personalized and aims to be done according to the guests' preferences.

Elevate your mind

The various spaces at the Octant Hotels Douro are an experience in themselves and an invitation to rest and relaxation. However, what we most like to do is create special moments so that you will always remember your stay as being truly memorable.

Pop into the library

If peace and quiet is what you're looking for then this is one of the perfect places for you.

During the winter, some of our most exclusive experiences take place here and, even if there's nothing going on, you can always enjoy the cozy warmth of the fire.

Be more sustainable

One of our major concerns is reducing the impact of our day-to-day operations on the environment, since we know that permanent measures are needed for there to be a significant change.

This is why we created our Green Project, which sets our annual targets and implements them.

Today we are proud to have already put a number of measures into practice that have transformed us.

These experiences must be booked in advance and are subject to availability.

The Herb Garden

Apart from our concern about environmental sustainability, one of the things we believe to be very important is knowing the origin of the products that come into our kitchen.

This is why one of our projects has been to develop an organic vegetable and herb garden so that these products can then be used in preparing our products.

Green Initiatives

Since nature and our connection to it is what drives us, we have developed a number of initiatives aimed at maintaining and improving the surrounding landscape.

Speak to our Experience Manager and ask what the next one will be. Come and share these moments with us.

- / Cleaning up the river
By kayak, paddle board or boat.
- / Cleaning up the Ilha dos Amores
- / Cleaning up and maintaining our trails

TIAGO AND SÍLVIA Green Wine Estate

Tiago's father was a cobbler (sapateiro in Portuguese). A few years ago, he bought some land and planted vines so he could make wine that he would then offer to his friends.

The stage was set for Sapateiro Wines.

Tiago ended up following in his father's footsteps and Sílvia - Tiago's partner - joined him. Together they founded Sapateiro Wines, from whom you will hear some stories about vinho verde, the "green" wine produced in the region, and about their experiences and lifestyle.

CASA DE ALGAR

In Castelo de Paiva, 40Km from Porto, Casa de Algar has been producing Verde wine for over 100 years.

Passing from generation to generation, the wine production is maintained and currently explores about 10ha of vineyard in integrated production, being the cornerstone of its activities the production and commercialization of green wine DOC with the brand Pata da Burra.

The grapes used in vinification reveal all the potential of the grape varieties used, either in blended wines or in single-varietal wines, producing mainly white wine using as main varieties: Arinto, Loureiro, Trajadura, Alvarinho and Chardonnay.

Its range of wines also includes a rosé wine made with the Espadeiro and Touriga Nacional castes and a red wine made essentially from the vinhão castes.

For each wine, the grapes are carefully selected, obtaining, through vinification in their own facilities, the organoleptic characteristics capable of identifying and personalising the various Pata da Burra wines.
